### **Cellar Master - Product Overview**

Cellar Master has been produced specifically for Licensed Trade retailers, to assist with the process of stocktaking, accounting for deliveries and purchases, and reconciling stock consumed against income received.

Simple and straightforward, the software manages the whole process from the initial entering of stock items to producing a YTD summary of stock takes.

Cellar Master puts you in control of your stock through a process of measurement, assessment and action.

#### **Fast Set Up**

The Setup Wizard provides predefined product pick-lists, allowing products to be selected as required. S

The software accommodates all types of 'for resale' stock, from draught beer to tobacco items and snac

Cellar Master categories can be set up to reflect the categories used on the till(s).

#### **Easy Maintenance**

Cellar Master allows the easy entry of delivery information. This can be entered at any convenient time.

New product lines – and associated information, such as the number of bottles per crate - can be added  
Cellar Master accepts Z-report information from the tills to reconcile stock used.

#### **Stocktaking**

A key feature of Cellar Master is the stock recording sheet. The software produces a printed list of all sto

Cellar Master permits the production of a trial report prior to Confirming, to allow any mistakes to be corr

#### **Monitoring Stock Items**

Sometimes, it may be desirable to closely monitor certain items. High value items, such as wine boxes a
